## WHAT ARE NEGATIVE IONS?

Negative Ions are known as Nature's Vitamin in the air. Negative ions are molecules floating in the air or atmosphere that have been charged with electricity. They are oxygen atoms with extra - negatively - charged electrons which are an odorless, tasteless, and invisible molecule that are inhaled into our respiratory system. They are abundant in nature, especially around waterfalls, beaches, green mountains, and forest reserves.

## HEALTH BENEFITS -

Scientifically proven fact – these ions contributes to overall well being and healthy by keeping our body reviving all functions:

Boosts immunity system.

Purify the blood by improving blood circulation, Increases Calcium, Decreases blood sugar & cholesterol by normalizing the work of cardio vascular system.

Helps to prevent respiratory related illness, improves lung functions – 30 minutes after negative ions intake, the lungs is able to inhale 20% more oxygen and exhale 14.5% more carbon dioxide. High level of negative ions neutralizes the effect that tobacco smoke and pollution has on the cilia.

Improves skin conditions, against hair loss & anti-aging rejuvenation.

The balance autonomic nervous system, regulates the heart rate, digestion, respiratory rate, papillary response, urination, and sexual functions.

Natural pain killer, anti-inflammatory effects.

Increasing the brain serotonin, reducing anxiety, stress, fatigue, depression, migraine relaxation by eliminating insomnia, improves sleep quality.

Fast improvement in patient's health.

Powerful antioxidant and Neutralize free radicals, anti-bacterial, anti-viral effects & Revitalize metabolism and enhance immune function.

Decrease headaches & sickness

*Breathing negative ions improves Your Wellbeing...*

## How does it work?

**STEP 1**

The device is designed to generate negatively charged ions at approx. 100 millions per second of emission rate that are electro statically attracted to positively charged air borne particles and aerosol droplets and attaches to them in large numbers.

**STEP 2**

The negative air ions generated by the device form OH – clusters (hydroxyl radicals) around micro-particles and rapidly react with viruses and bacteria by destroying their protein cell wall by breaking its DNA without harming human and animals. Hydroxyl radicals, also known as nature's detergent, which occurs naturally in the open air but are absent indoors.

**STEP 3**

The device creates a continual supply of negative ions, which sanitize the air and surfaces by reducing viral load in a closed environment, 24/7. The negative ions neutralize all type of viruses and bacteria significantly reducing the risk of both air and surface borne infections.

The RAISE Pure Air negative ion generator device would help to track the corona virus positive cases and suspects as well as ensures the wellbeing of the Staff, Employees, Doctors, and Nurses working around the clock in the offices & quarantine facilities, enhancing their disease resistance power and ability to fight the virus.

## VITAMINS & MINERALS

The food we eat is also another important source of negative ions as anti-oxidants (negative ions) are found in Vitamin A, vitamin C, vitamin E, beta carotene & superoxide dismutase. Unfortunately the majority of foods eaten today are low in these vitamins and minerals. This is largely due to mineral depletion in our soil. Over the last 100 years minerals in the soil has decreased 90%. Without the proper nutrients in the soil we are unable to get the proper nutrients from the food we eat.

## VITAMIN - CHEMICAL STRUCTURE

### The Problem:

You probably do not live in a forest and are either in a house or office at your computer so right away there are not sufficient negative ions in your environment. You are also not getting the negative ions from your tap water as all city water is loaded with free radicals. Additionally the food we eat is also poor in the vitamins we use to get our anti-oxidants from due to poor top soil. Even if you are able to get the negative ions you need those will quickly be cancelled out due to high positive ion sources. The fact is unless you are living off the land in the forest your environment is full of positive ions (free radicals) and low in negative ions.

### The solution is the RAISE Pure Air Negative Ion Generator :

We can supplement our bodies with the negative ions needed by using the RAISEPure Air Negative Ion Generator. Through the squeezed electric currents the ProtectX generator produces over 100 million negative ions per second.

# PROTECT YOUR FAMILY FROM HARMFUL RADIATION

Negative Air ions protects you from harmful Radiation by neutralize radiation from our body and remove Indoor Radiation (EMF) generated by Mobile Phone, 4G Phone Tower, High Tension Tower, Wi-Fi, Home Electronic and Electrical Products, House wiring, UV Light, Television, Computers, Microwave oven, etc.

- ✓ NO FILTERS
- ✓ NO CHEMICAL
- ✓ NO UV & Radiation
- ✓ NO OZONE
- ✓ NO Maintenance

## TECHNICAL SPECIFICATIONS

<b>Supply Voltage</b>	110 / 230V	<b>Weight</b>	5 Kg
<b>Wattage Fan Mode</b>	40 Watt	<b>Dimensions</b>	(379.09 x 137 x 278.59) mm
<b>Ions Emission Rate</b>	Approx. 100 Million Negatively charged Ions per second	<b>Area Covered</b>	1000 Sq. ft.
<b>Warranty</b>		1 Year	

## APPLICATIONS

HOUSES

HOSPITALS

GOVT. OFFICES

BANKS

MALLS

THEATRES

CARS

CORPORATE OFFICES/  
IT COMPANIES

SCHOOLS

SPORTS DRESSING  
ROOM

AIRCRAFTS

SUBMARINES
